Using the Ring Sizer

1. Print out the sizer below and carefully cut along the outline of the sizer. Make a small slit in the left end of the sizer.
2. Wrap the sizer around the intended finger with the numbers facing out.
3. Slide the pointed end of the sizer through the slit.
4. Move the sizer to the largest part of the finger, this may be the knuckle.
5. Pull tightly. The sizer must fit snugly to produce an accurate size.
6. The number that lines up at the slit represents the ring size for that finger.

Ring Cutout

Note: Avoid measuring cold fingers as this is when fingers are at their smallest; measure your finger when it is at its largest, at the end of the day.
